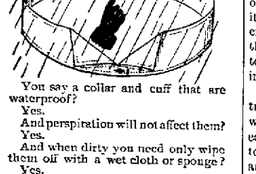
THAT'S QUEER!



You say a collar and cuff that are waterproof?
Yes.
And perspiration will not affect them?
Yes.
And when dirty you need only wipe them off with a wet cloth or sponge?
Yes.
Wonderful! How are they made?
A linen collar covered on both sides with waterproof "CELLULOID." Looks exactly like a linen collar.
Is it the only waterproof collar and cuff made?
No, but it is the only one made with the linen interlining and consequently the only one that can give entire satisfaction, because it is the best.
How can I know that I get the right kind?
Because every piece is stamped as follows:

TRADE ELLULOID MARK.

Inquire for that and refuse anything else, or you will be disappointed.
Suppose my dealer does not have them?
He probably has, but if not, send direct to us, enclosing amount. Collars 25c., Cuffs 50c. State size, and whether collar wanted is stand-up or turned-down.

PRESIDENT'S MESSAGE.

CURRENCY REFORM URGED.

TRADE SHOULD NOT BE RESTRICTED—FREE SHIPS AND MORE TRADE.

We Publish Such Parts of the Message as are of Most General Interest. It Should Be Read by all Thinking Men.

TO THE CONGRESS OF THE UNITED STATES:

The assemblage within the nation's legislative halls of those charged with the duty of making laws for the benefit of a generous and free people impressively suggests the exacting obligation and inexorable responsibility involved in their task. At the threshold of such labor now to be undertaken by the Congress of the United States and in the discharge of an executive duty enjoined by the Constitution I submit this communication, containing a brief statement of the condition of our national affairs, and recommending such legislation as seems to me necessary and expedient.

The history of our recent dealings with other nations and our peaceful relations with them at this time additionally demonstrate the advantage of consistently adhering to a firm but just foreign policy, free from envious or ambitious national schemes and characterized by entire honesty and sincerity.

CHINA AND JAPAN.

A gratifying recognition of the uniform impartiality of this country towards all foreign States was manifested by the coincident request of the Chinese and Japanese Governments that the agents of the United States should, within proper limits, afford protection to the subjects of the other during the suspension of diplomatic relations due to a state of war. This delicate office was accepted, and a misapprehension which gave rise to the belief that in affording this kindly unofficial protection our agents would exercise the same authority which the withdrawn agents of the belligerents had exercised was promptly corrected. Although the war between China and Japan endangers no policy of the United States it deserves our gravest consideration by reason of its disturbance of our growing commercial interests in the two countries and the increased dangers which may result to our citizens domiciled or sojourning in the interior of China.

Acting under a stipulation in our treaty with Corea (the first concluded with a Western power) I felt constrained at the beginning of the controversy to tender our good offices to induce an amicable arrangement of the initial difficulty growing out of the Japanese demands for administrative reforms in Corea; but the unhappy precipitation of actual hostilities defeated this kindly purpose.

Deploring the destructive war between the two most powerful of the Eastern nations and anxious that our commercial interests in those countries may be preserved and that the safety of our citizens there shall not be jeopardized, I would not hesitate to heed any intimation that our friendly aid for the honorable termination of hostilities would be acceptable to both belligerents.

Commerce With Germany.

Acting upon the reported discovery of Texas fever in cargoes of American cattle, the German prohibition against importations of live stock and fresh meats from this country has been revived. It is hoped Germany will soon become convinced that the inhibition is as needless as it is harmful to mutual interests.

The German Government has protested against that provision of the customs tariff act which imposes a discriminating duty of one-tenth of one cent a pound on sugars coming from countries paying an export bounty thereon, claiming that the exaction of such duty is in contravention of articles five and nine of the treaty of 1828 with Prussia.

In the interest of the commerce of both countries and to avoid even the accusation of treaty violation, I recommend the repeal of so much of the statute as imposes that duty, and I invite attention to the accompanying report of the Secretary of State containing a discussion of the questions raised by the German protests.

ACROSS THE PACIFIC.

Since communicating the voluminous correspondence in regard to Hawaii and the action taken by the Senate and House of Representatives on certain questions submitted to the judgment and wider discretion of Congress, the organization of a government in place of the provisional arrangement which followed the deposition of the Queen has been announced with evidence of its effective operation. The recognition usual in such cases has been accorded the new government.

JAPAN.

Apart from the war in which the Island Empire is engaged, Japan attracts increasing attention in this country by her evident desire to cultivate more liberal intercourse with us and to seek our kindly aid in furtherance of her laudable desire for complete autonomy in her domestic affairs and full equality in the family of nations. The Japanese Empire of to-day is no longer the Japan of the past and our relations with this progressive nation should not be less broad and liberal than those with other powers.

The Mosquito Indian Strip.

Prominent among the questions of the year was the Bluefields incident, in what is known as the Mosquito Indian Strip, bordering on the Atlantic Ocean and within the jurisdiction of Nicaragua. By the treaty of 1860 between Great Britain and Nicaragua the former governments expressly recognized the sovereignty of the latter over the strip, and a limited form of self-government was guaranteed to the Mosquito Indians, to be exercised according to their customs, for themselves and other dwellers within its limits. The so-called native government, which grew to be largely made up of aliens, for many years disputed the governity of Nicaragua over the strip and claimed the right to maintain therein a practically independent municipal government. Early in the past year efforts of Nicaragua to maintain sovereignty over the Mosquito territory led to serious disturbances, culminating in the suppression of the native government and the attempted substitution of an impracticable composite administration, in which Nicaragua and alien residents were to participate. Failure was followed by an insurrection which for a time subverted Nicaraguan rule, expelling her officers and restoring the old organization. This, in turn, gave place to the existing local government established and upheld by Nicaragua.

Although the alien interests arrayed against Nicaragua in these transactions have been largely American, and the commerce of that region for some time have been and still is chiefly controlled by our citizens, we cannot for that reason challenge the rightful sovereignty of Nicaragua over this important part of her domain.

For some months one, and during part of the time two, of our naval ships have been stationed at Bluefields for the protection of all legitimate interests of our citizens. In September last the Government at Managua expelled from its territory twelve or more foreigners, including two Americans, for alleged participation in the seditious or revolutionary movements against the Republic at Bluefields already mentioned; but through the earnest remonstrance of this government the two Americans have been permitted to return to the peaceful management of their business. Our naval commanders at the scene of these disturbances, by their constant exhibition of firmness and good judgment, contributed largely to the prevention of more serious consequences and to the restoration of quiet and order.

I regret that in the midst of these occurrences there happened a most grave and irritating failure of Nicaraguan justice. An American citizen named Wilson, residing at Rama, in the Mosquito territory, was murdered by one Argüello, the acting Governor of the town. After some delay the murderer was arrested, but so insecurely confined or guarded that he escaped, and notwithstanding our repeated demands it is claimed that his recapture has been impossible by reason of his flight beyond Nicaraguan jurisdiction.

The Nicaraguan authorities having given notice of forfeiture of their concession to the canal company on grounds purely technical and not embraced in the contract, have receded from that position.

OUR FINANCIAL CONDITION.

The Secretary of the Treasury reports that the receipts of the government from all sources of revenue during the fiscal year ending June 30, 1894, amounted to $372,802,495 20 and its expenditures to $442,605,758 87, leaving a deficit of $69,803 260 55. There was a decrease of $15,952,674 06 in the ordinary expenses of the government, as compared with the fiscal year 1893.

There was collected from customs $131,818,530 62 and from internal revenue $147,168,149.70. The balance of the income for the year, amounting to $93,-815,517.97, was derived from the sales of lands and other sources.

The value of our total dutiable imports amounted to $275 199,088, being $146,657,625 less than during the preceding year, and the importations free of duty amounted to $379,795,536, being $64,748,675 less than during the preceding year. The receipts from customs were $73,536,486 11 less, and from internal revenue $13,836,539 97 less than in 1893.

The total tax collected from distilled spirits was $85,259 250 25; on manufactured tobacco, $28,617,808 62, and on fermented liquors, $31,414 788 04.

Our exports of merchandise, domestic and foreign, amounted during the year to $892,140,572, being an increase over the preceding year of $14,495,375.

The total amount of gold exported during the fiscal year was $76,808,061, as against $108,650,444 during the fiscal year 1893. The amount imported was $72,449 119, as against $21,174,381 during the previous year.

The imports of silver were $13,280 552 and the exports were $50 451 265.

The total bounty paid upon the production of sugar in the United States for the fiscal year was $12,108,208 89, being an increase of $2,725,078 01 over the payments made during the preceding year. The amount of bounty paid from July 1, 1894, to August 28, 1894, the time when further payments ceased by operation of law, was $966,185 51. The total expenses incurred in the payment of the bounty upon sugar during the fiscal year was $130,140 85.

It is estimated that upon the basis of the present revenue laws the receipts of the government during the current fiscal year ending June 30, 1895, will be $424,-427,748 44 and its expenditures $444 427-748.44, resulting in a deficit of $20,000,-000.

THE CURRENCY

On the first day of November, 1894 the total stock of money of all kinds in the country was $2 240,773,888, as against $2 204 651,000 on the first day of November, 1893, and the money of all kinds in circulation, or not included in the Treasury holdings, was $1,872,093,422, or $24,-27 per capita, upon an estimated population of 68,887,000. At the same date there was held in the Treasury gold bullion amounting to $44,615.177 55 and silver bullion which was purchased at a cost of $127,779,988. The purchase of silver bullion under the act of July 14, 1890, ceased on the first day of November, 1893, and up to that time there had been purchased during the fiscal year 11,917,658 78 fine ounces at a cost of $8,715,521.32, an average cost of $0 7313 per fine ounce. The total amount of silver purchased from the time that law took effect until the repeal of its purchasing clause on the date last mentioned 168,674 682 53 fine ounces, which cost $155,931,002 25, the average price per fine ounce being $0.9244.

The total amount of standard silver dollars coined at the mints of the United States since the passage of the act of February 28, 1878, is $421 776 408 of which $378,166,793 were coined under the provisions of that act, $38 531,143 under the provisions of the act of July 14, 1890, and $5,078,472 under the act providing for the coinage of trade-dollar bullion.

The total coinage of all metals at our Mints during the last fiscal year consisted of 63,485 220 pieces valued at $100,-216,780 06, of which there were $90,474,-912.50 in gold, coined, $758, in standard silver dollars, $6 024.140.30 in subsidiary coin and $716,919 20 in minor coin.

During the calender year 1893 the production of precious metals in the United States was estimated at 1,730,326 fine ounces of gold, of the commercial and coinage value of $35,955,000, and 60,000,-000 fine ounces of silver of the bullion or market value of $46,800,000 and of the coinage value of $77,676,000. It is estimated that on the 1st day of July, 1894, the stock of metallic money in the United States, consisting of coin and bullion, amounted to $1,251,640,958, of which $627,923,201 was gold and $624,-317,757 was silver.

NATIONAL BANKS.

Fifty national banks were organized during the year ending October 31, 1894, with a capital of $5,285,000, and seventy-nine, with a capital of $10,475,000, went into voluntary liquidation. Twenty-one banks, with a capital of $2,770,000, were placed in the hands of receivers. The total number of national banks in existence on the 31st day of October last was 3,756, being 40 less than on the 31st day of October, 1893. The capital stock paid in was $672,671,305, being $9,678,-491 less than at the same time in the previous year, and the surplus fund and undivided profits, less expenses and taxes paid, amounted to $331,121,082 10, which was $16,089,780 less than on October 31, 1893. The circulation was decreased $1,741,563. The obligations of the banks to each other were increased $127,268,334, and the individual deposits were $277,294,489 less than at the corresponding date in the previous year. Loans and discounts were $161,206,923 more than at the same time the previous year, and checks and other cash items were $20,349,993 more. The total resources of the banks at the date mentioned amounted to $3,173,922,055, as against $3 109,503 284 36 in 1893.

THE OTHER DEPARTMENTS.

It is hardly necessary to recall the fact that, in obedience to the commands of the Constitution and the laws and for the purpose of protecting the property of the United States, aiding the process of Federal courts and removing lawless obstructions to the performance by the government of its legitimate functions, it became necessary in various localities during the year to employ a considerable portion of the regular troops. The duty was discharged promptly, courageously and with marked discretion by the officers and men, and the most gratifying proof was thus afforded that the army deserves that complete confidence in its efficiency and discipline which the country has at all times manifested.

OUR NEW NAVY.

Attention is called to the report of the Secretary of the Navy, which shows very gratifying progress in the construction of ships for our new navy. All the vessels now building, including the three torpedo-boats authorized at the last session of Congress and excepting the first-class battleship Iowa, will probably be completed during the coming fiscal year.

The estimates for the increase of the navy for the year ending June 30, 1895, are large, but they include practically the entire sum necessary to complete and equip all the new ships not now in commission, so that unless new ships are authorized the appropriations for the naval service for the fiscal year ending June 30, 1897, should fall below the estimates for the coming year by at least $12,000,000.

The Secretary presents with much earnestness a plea for the authorization of three additional battleships and ten or twelve torpedo-boats. While the unarmored vessels heretofore authorized, including those now nearing completion, will constitute a fleet, which it is believed is sufficient for ordinary cruising purposes in time of peace, we have now completed and in process of construction but four first-class battleships and but few torpedo-boats. If we are to have a navy for warlike operations, offensive and defensive, we certainly ought to increase both the number of battleships and torpedo-boats.

I recommend that provision be made for the construction of additional battleships and torpedo-boats.

INDIAN AGENTS.

I am convinced that the proper solution of the Indian problem and the success of every step taken in that direction depend to a very large extent upon the intelligence and honesty of the reservation agents and the interest they have in their work. An agent fitted for his place can do much toward preparing the Indians under his charge for citizenship and allotment of their lands, and his advice as to any matter concerning their welfare will not mislead. An unfit agent will make no effort to advance the Indians on his reservation toward civilization or preparation for allotment of lands in severalty, and his opinion as to their condition in this and other regards is heedless and valueless. The indications are that the detail of army officers as Indian agents will result in improved management on the reservations.

Gettysburg, Tuesday, Dec. 11, 1894.

MR. REILING DOES THE REST.

The slate having been arranged, the Republicans, through Messrs. Reiling and Hall, held a meeting last Tuesday and elected the Alms-house officers. Unfortunately the powers-that-be did not notify Mr. Reiling of their selections until quite late in the day so that he did not know exactly who to promise his support. Mr. Hartzell, we are told, allowed his name to be mentioned at Mr. Reiling's suggestion. It was something of a surprise to Messrs. Hersh and Keckler not to be, nominated as they also, it seems, had the promise of Mr. Reiling for the positions. The Board met at the Alms-house in the morning and took dinner. Mr. Reiling did not get a square meal on account of frequent calls from the office-seekers for private consultations.

In the afternoon they met in the Court-house and made the selections. Mr. Stock, Clerk, acted as chairman and announced the offices as they were to be filled. In each case, except one, Mr. Reiling made the nominations and, there being no others, his candidates were elected. Mr. Hall nominated Major Bell.

The following is the result:

Steward, Peter Panebaker, of Union.
Clerk, Major Robert Bell, of Straban.
Treasurer, Calvin K. Gilbert, of Gettysburg.
Physician, Dr. J. R. Dickson, of Gettysburg.
Counsel, R. E. Wible, Esq., of Gettysburg.
Abraham Keckler, will take the place of John Toot, as Gardener.
John F. Eicholtz will be replaced by [illegible] Wenschoff, of Freedom, in the Insane Department.

The most interesting anticipation of the meeting was the financial question. It was expected that large reductions would be made in salaries, but, as far as the Board went, no changes were made. All financial considerations were postponed until the next meeting.

The Out-door Relief question, much mooted by the Republicans, was not settled, not having been discussed before the meeting, nor instruction given. Mr. Reiling was not prepared to settle the matter or to make any suggestions about it There was talk, however of attaching the management of the Out-door Relief department to the Clerkship.

A minute was placed on the records to the effect that the matron should be considered an officer of the institution, but is to be the Steward's wife. It was also decided that hereafter the Board will select the employees, not the Steward as heretofore.

The feature of the occasion was the smoothness of it. When a nomination was to be made, Reiling made it. Hall had nothing to say, neither had Group. Mr. Reiling did it.

In explanation of the turning down of a very estimable candidate for the Treasurership, one of those connected with the *Star and Sentinel* said, "We must have political workers." The defeated candidates can, from this expression, estimate their standing in their party and take a back seat accordingly, and the people can see further into the political schemes of our contemporary.

The machine pressed the button and Mr. Reiling did the rest.

THE PRESIDENT'S MESSAGE.

Public documents, containing discussion and recommendation of matters of vital national concern, ought to be read and digested by every intelligent citizen Presidents' messages have to do with the questions involved in legislation, in commerce, in our foreign relations and, indeed, in all affairs which relate to the Nation's affairs.

President Cleveland's last paper is a strong and intelligent document, indicating a far-reaching and thorough insight into the public business. It deals very largely with our currency question which has come to be considered a matter in need of great change for betterment.

The two late issues of bonds have drawn attention to the apparently bad financeering on the part of the Government. Income and expenditure are out of the right proportion. President Cleveland, seeing this, recommends a new system, by which the present banking arrangements may be changed and improved.

Pensions, foreign relation, our part in the settlement of the China and Japan difficulty, the Indian question, reports of the various departments, tariff amendments, taxation and the sugar differential are all considered and presented to Congress in a clear, open statement.

No paper has given the people a more correct or more honest account of the national business than does this message. To read and understand it is almost a duty of citizenship.

THE FUTURE.

Congressman Holman, of Indiana, in his recent political statement, expressed the sentiment of a far sighted, thinking man. He said that the Democratic party is far from dead. "It may be reorganized," he says, "but its principles are vital and imperishable. I haven't a doubt that it will be successful in the next national election."

"The Republican party," he said, "will go out of existence as the Whig party did. The Republican party will be weaker two years from now, probably, than at any time in its history. Its corner-stones are Protection and a splendid Government which is a synonym for political extravagance."

READ THE ADVERTISEMENTS.

We take occasion to draw attention to the advertisements appearing in this issue and to recommend the firms as both honest and reliable. The advertiser is the man who does business and is acquainted with business methods. He knows how to buy and how to sell. Having dealt with all of these gentlemen we take pleasure in suggesting a trial of their goods before buying elsewhere. Notice the advertisements.

THE Republican leaders appear to have agreed with us in the belief that it would not do to appoint the junior editor of the *Star* to a position in the Alms-house.

THE INDICATIONS OF FIGURES.

One of the most important factors in the last election has been developed in counting the figures. At least a half million Democrats did not vote at all. In New York the Democratic loss was 138,715, while the Republican gain was only 64,162. In Ohio, the Republican gain was but 8 801, Democratic loss 127,133. These figures, being similar in many other States, indicate that the Republicans did not win on their own responsibility, and show that the defeat of the Democratic party was due to Democratic votes. The Republicans apparently are no better off by the recent election than they were before as they simply reaped the benefit of circumstances which were unfortunate for the Democrats.

It will not be wise for the Republicans, as they well know, to build too high on the recent turn of events. Luck appeared to have been their way this time and booming helped their candidates, but luck and booming are but poor foundations on which to base any future speculations, or hope for success.

Democrats are no fewer now than they were some months or years ago. Figures indicate that these voters who did not vote the Democratic ticket this fall did not vote at all. If so, they are as yet Democrats and will vote with their party when circumstances are propitious.

The Republicans must do something to merit the respect and confidence of the people if they are to keep their power. They appear, however, to be somewhat worried already with the personal ambitions of the several leaders. The national leaders appear to be floundering around generally, not knowing to what principle to attach themselves. They, as well as our county leaders, are getting the most they can out of their position. Even Republicans must become disgusted with personalism in politics.

As the contractor for the new building comes around frequently for money and as our bank account is sometimes short, we ask those who owe us to keep us in mind when money comes in hand.

A Gettysburg Park.

$100,000 May be Appropriated for the Purpose.

General Sickles introduced a bill into Congress, last Thursday, appropriating $100,000 to enable the Government to buy the Battlefield for a National Park. Writing on the bill editorally the Phila. *Times* says: "The government has already possession of the Chickamauga battlefield that has been dedicated as a National Park, and there is every reason why Gettysburg should be added to the list.

"While the battle of Chickamauga was the bloodiest conflict of the war, the losses on both sides being greater in proportion to the number engaged than in any other of the many hard-fought battles of the struggle, Gettysburg stands out distinctly as the decisive battle of the desperate conflict between the North and South. It was at Gettysburg that the overthrow of the Confederacy was absolutely determined by the irrevocable arbitrament of the sword.

"Public interest, not only at home but abroad, is increasing in the battlefield of Gettysburg. It is studied not only by military men of the world, and its historic hills visited as of equal interest with the hills of Waterloo, but every tourist from abroad and every intelligent citizen at home who can find it convenient to do so, visits Gettysburg to see the field that is memorable as the place where was decided the fate of the rebellion. It is not only a place of national interest, but it is a field of world-wide interest. and while it is yet possible to obtain the property without difficulty, Congress should promptly pass the bill introduced by the General who left a leg upon that memorable field while leading his gallant Third Corps in the bloody peach orchard.

"The fact that the Gettysburg battlefield is vastly more appreciated to-day than it was a quarter of a century ago, indicates the increased interest that must attach to it in generation after generation shall come to enjoy the free institutions which were there saved from overthrow. The government should therefore obtain possession of all the property that could at any future time add interest to the Gettysburg battlefield. There should not be a single vote in either branch of Congress against possessing these grounds to be dedicated forever as a National Park."

Tax Rate Fixed.

Three and One-half Mills for County purposes.

At a meeting last Wednesday; the Commissioners fixed the tax-rate at 3½ mills on all property taxable for county purposes, for the year 1895. We subjoin, for general information, a list of property taxable

300th Anniversary.

A meeting, in commemoration of the 300th anniversary of the birth of Gestavus Adolphus, King and hero of Sweden, was held in Christ Lutheran church last Sunday evening under the auspices of the young men of the Seminary. It was a meeting of the two Lutheran congregations. A collection amounting to about $26 was taken to help the mission cause in the building of a church in the Cold Spring region. The address was delivered by Dr. Wm. E. Parsons, of Washington. Prayer was offered by Rev. A. R. Steck. Dr. Wolf made an appeal for a liberal collection. Rev. Black had charge of the services.

It was Gustavus Adolphus who aided the Christians during the Thirty Years' War in Germany. He furnished a large army to support the Lutheran Church in its trials during that terrible conflict, and is honored by them as a hero of their cause.

Another Loan Association.

On Friday evening a branch of the Life Protective Savings and Loan Association of Pennsylvania, with headquarters at Pittsburg, was organized in this place by M. L. Beardsley, General Agent. The following officers were chosen: President, Chas. S. Duncan, Esq., Vice President, Dr. G. D. Stahley; Secretary, Prof. J. Dorsey Hunter; Treasurer, John A. Menchey; Attorney Wm. Arch McClean, Esq., Medical Examiner, Dr. Walter H. O'Neal. The Directory consists of the above officers with the addition of Prof. P. M. Bikle, D. M. Wolf and E. P. Sacks.

Farmers' Meeting.

The Adams County Farmers' Association met in the Court-room on Saturday. In the absence of the President, Mr. A. M. Waybright called the meeting to order, after which the minutes of the last meeting were read and approved.

Notice was given that at the next regular meeting of the Association a proposition would be made to change Article 8d of the Constitution, so as to have the office of Chemist and Botanist added to the list of regular offices.

The following resolution was adopted:

That, in as much as the same organization which elected Mr. Israel Garretson, has elected a successor to fill the unexpired term and have complied with the law regulating the election and necessary requirements to obtain representation in the State Board of Agriculture, we, "The Adams County Farmers' Association," acquiesce in the election of Mr. Aaron I. Weidner.

As this would be the last meeting of the year and new officers would be elected at the next meeting, the chair appointed Messrs. C. L. Longsdorff, Wm. Wible and Robert S. Bream a committee for this purpose.

First on the program was a paper by Mr. Wm. Black, on "Capilarity," which was further discussed by Dr. C. E. Goldsborough, Hon. R. Wm. Bream, C. L. Longsdorff, Wm. Wible and Dr. Franklin Menges.

In the absence of Mr. D. P. Forney, Dr. Menges consented to take his place in the discussion of the subject "What is the cause of the present agricultural depression and the remedy, if any?" The discussion was further continued by Dr. Goldsborough and Hon. R. Wm. Bream.

"How can we best ascertain the number of children not attending our Public Schools and how can they be reached?" was the title of an essay by Mr. John McAllister.

Mr. Aaron I. Weidner, member-elect of the State Board of Agriculture, being present, was called upon and made a brief address.

Hon. Edw. McPherson, chairman of the committee on legislation, thought, as the Legislature was not now in session, there was not anything to be specially recommended.

Dr. Goldsborough, on "What benefits are derived from Farmers' Institutes," gave some points on how Institutes could be made a success. Mr. Wm. H. Black avoned the holding of an Institute at Gettysburg, the centre of the county.

John B. McPherson, Esq., called attention to a proposed law to pension Judges after serving a certain length of time or after reaching a certain age, a number of members expressing their disapproval of the measure.

HON. JOHN A. SWOPE, vice president of the Washington Loan and Trust Co., has been elected president of the Gettysburg National Bank, which is the second time he has held this position, having served for ten years previous to the time he was elected member of Congress. Mr. Swope's father, George Swope, filled the post of president of the same bank for thirty years, up to the time of his death. Mr. Swope's grandfather also served as president of the same bank, entering upon his duties in 1835. Such occurrences are rare in this country, and therefore interesting, that three generations, located in a single town, should render such conspicuous and responsible services in not only the same bank, but in the same building.—*Washington Post.*

RESIGNATION.—Rev. John G. Noss has tendered his resignation as pastor of St. Mary's Reformed Congregation, at Silver Run, to take effect on December 15. He has served the congregation for eighteen years, and his pastorate has been a most successful one. Under his leadership the congregation erected a new church edifice, probably the handsomest in Carroll county, at a cost of $20,000, all of which has been paid. His new field of labor will be in the New Holland charge, Lancaster county, Pa.—*Emmsburg Chronicle.*

HANOVER'S telephone exchange was opened on Wednesday.

HAUNTED!—A haunted house in these practical and unromantic days is something of a rarity, but an individual haunted with the idea that his ailments is incurable is a personage frequently met with. Disbelief in the ability of medicine to cure is only a mild form of monomania, although in some cases repeated failures to obtain relief from many different sources would almost seem to justify the doubt. Hostetter's Stomach Bitters has demonstrated its ability to overcome dyspepsia, constipation, liver and kidney trouble, malarial complaints and nervousness, and its recorded achievements in the curative line ought at least to warrant its trial by any one troubled with either of the above ailments, even although his previous efforts to obtain remedial aid have been fruitless. Used with persistence, the Bitters will conquer the most obstinate cases.

ATTORNEY GENERAL OLNEY says a soldier may be arrested, tried and punished by the proper civil authorities for the violation of a city ordinance.

"TRUST THOSE WHO HAVE TRIED."—Catarrh caused hoarseness and difficulty in speaking. I also to a great extent lost hearing. By the use of Ely's Cream Balm dropping of mucus has ceased, voice and hearing have greatly improved.—J. W. Davidson, Att'y at Law, Monmouth, Ill.

I used Ely's Cream Balm for catarrh and have received great benefit. I believe it a safe and certain cure. Very pleasant to take.—Wm. Frazer, Rochester, N. Y.

Price of Cream Balm is fifty cents.

General.

ANNIE M. SPRAGMAN, formerly of York Springs, was found guilty in the State District Court, last Friday, of using the mails in carrying on a scheme to defraud, nine months from the date of her arrest, which was on September 25 last. Abbie did an extensive business by advertising for husbands. She deceived some of her dupes out of remittances after having agreed to marry them. Grant Galvin, Abbie's accomplice, who had pleaded guilty, was fined $50 and sent to Cherry Hill for eighteen months. William B. Stone of Cumberland county, who is nearly 70 years of age, and who was convicted of receiving greater compensation than allowed by law in prosecuting a pension claim, got $50 fine and nine months in the County Prison.

A DISPATCH from Washington says that the Pension Bureau will hereafter refuse pensions to widows whose income from other resources, added to the proceeds of their own efforts, afford them a comfortable support.

THE county commissioners' association, says the Harrisburg *Independent*, will ask for a large number of amendments to laws relating to such officials, which will be watched with great interest by the taxpayers of the State.

Some of the citizens of Carroll county, Md., are investigating the Alms-house and are objecting to its management. A correspondent to the *Carroll Record* says that the building, beds and other accomodations are very poor.

THE Westminster *Advocate* says that the "people of Maryland are quite unanimous upon one point—that a new assessment law is needed. Under the administration of the laws, supposed not to be in violation of the organic law, fully half of the wealth of the state is untaxed."

Capt. A. W. Eichelberger, of Hanover, has 4 week offered 50 free scholarships at Eichelberger Academy at Glenville. The preference was given to the boys and girls of Hanover, and after them to any boys or girls in Pennsylvania or Maryland. Hanover took but 21 of the scholarships, and 9 are open to the boys and girls of other sections. Rev. C. M. Stock, of Hanover, will give full information to those desiring free scholarships.

THE State Farmers' Alliance Convention, representing a membership of 10,000, will meet at Harrisburg the third week in this month.

THE Franklin county almshouse bill for November has been approved by the county commissioners. It amounts to $1,377.79, the principal items of which are: Outdoor relief, $295.50; medical attendance, $111.50; Children's aid society, $50; director's convention and transportation, $59.08; maintenance, $13.75; wages, $81; groceries, $92.26; dry goods, $103.55; shoes, 13.95; hardware and paints, $8.08; justices' fees, $17; constables' fees, $31.80; fat cattle, $30.65; beef, $11.10; care of insane, $340.75.

A $15,000 monument in honor of the late ex-Governor Andrew G. Curtin, who founded the soldiers' orphans' schools, is to be placed in capitol park, Harrisburg, by the 15,000 graduates of the soldiers' orphans' schools of Pennsylvania, provided the legislature will permit this to be done.

COPIES of a bill to be presented to the legislature by the state sport-men's association providing for the appointment of a state game commission and game protectors are being circulated among members of the association in the State. Under this bill the headquarters of the commission would be Harrisburg. Another bill will be introduced to appropriate $15,000 to carry the first act into effect.

THE Home for Aged Veterans of the G. A. R. and their wives, in Philadelphia, was formally opened to visitors on Thursday and during the afternoon the building was so densely crowded that it was almost impossible to gain entrance. The idea of establishing such a home originated less than a year ago by W. D. Steele Circle, an organization of women attached to the G. A. R., and so favorable was it received that steps were taken immediately to make it a reality.

THE annual report of Superintendent of Public Printing Grier shows that the cost of the state printing for the fiscal year ended July 1, 1894, was $82,775.36. Of this Edwin K. Meyers, the late state printer, received $32,775.92, and Clarence M. Busch, his successor, $107,015.61. The cost of paper and other supplies was $56,926.09. The cost of printing and paper for the twenty years from July 1, 1874, to July 1, 1894, aggregated $2,566,581.67, an average per year of $104,841.58. There were issued during the past fiscal year 211,630 volumes of department reports, documents, etc., 72,695 pamphlets and 37,500 copies of geological maps.

It is estimated that half a million dollars are invested in bicycles in Pennsylvania, the larger number of owners of which are school teachers in the rural regions.

ACTING upon orders from the local law and order society several cigar stores and hotels in Carlisle have removed slot machines which had hitherto been operated in their places of business. It is also understood that the society is endeavoring to prohibit gambling when it exists within the borough.

QUITE a change was made on the Emmitsburg Railroad recently. Mr. Frank Lawrence, who has served in the capacity of conductor for many years, and Mr. Robert Groff, brakesman, were suspended for sixty days. Their places are being filled by Mr. L. Biehl, of the Western Maryland Railroad.

EX-GOVERNOR Bowie died at his home, "Fairview," in Prince George's county, Md., Tuesday morning at 2:30 o'clock. The cause of his death was paralysis, with which he was stricken on Tuesday morning, Nov 27. The Ex-Governor was buried as "Fairview," Thursday, in the family burying ground.

THERE are forty-five pensioners of the war of 1812 on the roll of the Pension Office, and fifteen of them are a hundred years old.

A Ripe Old Age.

On Saturday, Mr. Daniel Mickley, of Waynesboro, celebrated his 99th birthday, in a re-union of his children, grandchildren and great-grand-children. Mr. Mickley was born in Franklin township, this county, Dec. 8, 1795. At the age of 19 he enlisted in Captain Miller's Co. A. and was in the battle of Baltimore or the bombardment of Fort McHenry, September 13, 1814. It is said by the Chambersburg *Valley Spirit* that he is the only survivor of the war of 1812 in Pennsylvania.

Mr. Mickley returned to the pursuits of peace and lived in Adams county until 1828, when he moved to a farm in Washington county Md., which is still in the possession of his descendents. Before leaving Adams county he married Elizabeth H. Settle, who died in 1873, in Waynesboro, to which place the family moved in 1851. There were born to Mr. and Mrs. Mickley twelve children, six of each sex, six of whom still survive. Of those dead, Peter was killed by lightning September 4, 1854, near Greencastle, and John was killed in battle at Charlestown, W. Va., in 1863. He was a member of the Seventeenth Pennsylvania Cavalry.

The surviving children, who celebrated the birthday with their father Saturday, are Mrs. Kate Bell, Williamsport, Md.; Mrs. Polly Bell, Hagerstown, Md.; Mrs. Rev. Daniel Good, Waynesboro; Henry Mickley, Upton; Simon Mickley, near Waynesboro, and Daniel W. Mickley, who, with his niece, Miss Mollie E. Mickley, daughter of Simon, resides with and cares for his father. The three daughters are widows. D. W. Mickley, of the Cumberland Valley Railroad offices, Chambersburg, is a grandson of the veteran.

They were an honorable people and long-lived, many of them reaching beyond four score years. The father of Mr. Mickley died at the age of 89 years and 6 months; his uncle Daniel died at 88. The ages of his three brothers who are all dead, are given by him as follows: Henry 87, Abram 86, Peter 96.

Death of a Visitor.

On Sunday morning occurred the death of Mrs. Nellie T. Neely, wife of Mr. W. W. Neely, of Philadelphia, at the residence of Miss Ellie S. Gilliland, where deceased had been a guest since last September. She came here suffering from heart trouble and inside of two weeks took her bed, gradually growing worse though with best of medical attention and careful nursing, until death ended the severe sufferings which she bore with patient resignation. Mr. Neely, at present a member of the firm of Meredith & Neely, flour and feed dealers, in Philadelphia, is a native of this county and his many warm friends sincerely condole with him in this sad bereavement. Mrs. Neely, *nee* Thomas, was a native of Lyons, N. Y., aged 45 years 7 months and 17 days. Her remains were taken to that place for interment, funeral services having been held at Miss Gilliland's yesterday afternoon, conducted by Rev. H. W. Gilchrist. The bearers were S. A. and W. F. Gilliland, T. Bard Zell and A. Danner Buehler.

DEATH OF AN AGED LADY.

Mrs. Annie Cool, the aged widow of Peter Cool, deceased, died at her late home in Freedom township, on Friday, November 30th, aged 86 years, 11 months and 13 days. The funeral took place on the Monday following at St. Joseph's church, Emmitsburg. Services was conducted by Rev. Father Cavanagh.

Deceased's maiden name was Annie Lawyer. She was united in marriage to Peter Cool in 1826. As a union of this marriage, eleven children were born, four of whom survive her. At time of death she had forty-nine grand-children, seventy-five great-grand children and two great-great-grand children, making a total of one hundred and thirty-seven descendents. She resided all her life-time in Adams county. FRIENDS.

CONGRESSMAN-ELECT ANDREW J. CAMPBELL, the Republican opponent of General Daniel E. Sickles, Tammany candidate at the last election in the Tenth district, died last Thursday afternoon of Bright's disease, after an illness of two days. He was a native of Newark, N. J., and 66 years old. It is probable that General Sickles will again be a candidate at the special election to fill the vacancy caused by Mr. Campbell's death.

Town Council Proceedings.

At the regular meeting of Council, on Tuesday evening, the following members were present: Stoner, Wolf, Meals, Tipton, Minnigh, Stine and Bidinger.

Mr. Stine reported that the pavement in front of H. D. Scott's property had been made in accordance with instructions of Council. Later in the evening the bills for material and labor were presented, amounting to $145.50—brick $71.41, sand $40.60, laying pavement $19.50 carting and labor $4.50—all of which were ordered paid. In accordance with the ordinance 20 per cent. was added to the bill, making the total $174.60, which the Borough Attorney was directed to collect.

Mr. Meals suggested the opening of East Middle and Hanover streets to the the Borough limits and also the alleys. Mr. Stine referred to former action regarding East Middle street, thought the Culp estate should open the street and asked Council to consider the question of future damages. Mr. Minnigh thought Council should go slow and not act until the matter was in better shape. Mr. Meals waived on East Middle street, asking that Hanover street and the corresponding alleys be ordained. The Ordinance Committee was directed to prepare the proper papers.

Mr. Stoner reported an ordinance relating to Hawking and Peddling, which was adopted and which appears in our advertising columns.

Mr. Stine reported that the time allowed Mr. Hoffer to fix the gutter at Mr. Samuel Faber's having elapsed, the Highway committee had given an order to Mr. Calvin Gilbert for the iron work, and that they would go on with the work at once.

Mr. Stine asked for an order of $250.00 in favor of Boke, Bittinger & Co., in part payment of stone account, which was granted.

Mr. Stine, at the request of Capt. Gilbert, asked for the ordination of Hay, Howard, Reynolds and Seminary Avenues, through the Land Improvement Company's property, which was passed.

Mr. Minnigh referred to the absence of electric lights in this section, when Mr. Stine again spoke of the difficulty in getting permission to place poles, and further quoted Mr. Gilbert as saying if the streets were ordained there would be no trouble about the poles.

In reply to Mr. Eidinger's question about the changes ordered in the fire plugs, Mr. Stine said he had consulted the Water Company and through President McCurdy learned that the Company would make the changes at 6 per cent. additional rent. The Committee decided not to make the change now, on account of the lateness of the season.

Home Wedding.

Last Tuesday afternoon at the residence of Mr. C. H. Comfort, Baltimore street, was the scene of a very pretty wedding, his youngest daughter, Daisy C., being married to Mr. Walter Wilmer, of Baltimore. The bridesmaid was Miss Ina McMullen, of Baltimore, and the groomsman, Mr. C. W. Holtzworth, of this place. Rev. D. F. Garland, of Baltimore, brother-in-law of the bride, performed the ceremony in the presence of a large company. Elegant refreshments followed, and the presents were numerous and costly. The bridal party left at 3.50 for Baltimore, their future home, followed by the best wishes of a large circle of friends.

WEDDING.—Supt. O. H. Gates, of Ellwoods, N. D., formerly of this place, and Miss Francis Stahley, of Bismark, N. D., were married in that place on Thanksgiving morning. Immediately after the ceremony they left for their future home at Ellwoods. The Compiler joins the best wishes of their many eastern friends.

Feeding Wheat to Horses.

Don't Do It!

A writer in the *Country Gentleman* writes as follows:—For many weeks I have seen articles in English and American papers, regarding the proper way to feed wheat to horses, and have been astonished that no scientific man has cautioned owners regarding such use. Feed with caution mixed with oats!

I remember very well that fifty years ago, for reasons unknown, a great deal of wheat was fed to horses through one winter, with more grain-foundered horses the next five years than I have seen at any time since. Wheat is an unnatural food for horses, and was the cause.

Young growing horses may break in to a corn field and eat all they want without suffering permanent injury. Colic may follow, but bicarbonate of soda, with plenty of salt, will put them all right inside of twenty-four hours. So too, they may break into a barley, or oat, or rye field, and an excess of such ripening grain will not injure them beyond colic. If however, they eat a like quantity of ripening wheat, in seven cases out of ten, grain founder will follow. A horse foundered by wheat may and usually does have a beautiful cup foot; and I do not think many veterinarians of to-day would be able to diagnose the difficulty or its cause.

I have used wheat for horses for forty years, as a *medicine*. A mare with foal may be given to aborting. The third, fifth and seventh months, are the usual periods. In my many years of breeding, I have lost but three foals through abortion. I have always watched my mares, and if I see one loose in her bowels, I at once give her a pint of clean and sound wheat, mixed with two quarts of nice heavy oats. This I feed for three days, same quantity at night and morning, and save the fœtus or foal.

In case of scours in a sucking foal, I stir a pint of wheat flour in half a pailful of water, then give to the mare to drink, and inside of forty-eight hours, the foal is all right. I treat all ills in the suckling through its mother's milk.

With old stallions, for 40 years, I have fed wheat mixed with oats, one part to three wheat makes a good bright coat, puts on fat, and makes them vigorous in the stud, but otherwise, lazy.

Wheat in any form except good bran, is the worst possible food for horses used on the road, or in any way except at slow work. Like corn, it is heating and fattening; making fat in place of muscle. I have known many farmers to feed canaille or wheat middlings, and their horses were always fat, but were almost invariably shortened.

The terms "grain founder" and "air founder" were often applied to horses thirty-five and forty years ago. The worst founder known, is grain founder; and wheat is the grain to cause it. The horse so foundered may not fall in the sole, but may retain a beautiful looking foot, and experts call the lameness or soreness a navicular trouble, when it is simply *wheat* founder.

I would not buy a horse at any price which had been fed liberally of wheat, while growing; but the colt which had freedom of the oat bin as often as he choose to go to it from the time he was weaned until fit for work, will be sound and enduring; a good one to buy.

The State School for Farmers.

The farmers of Pennsylvania should not remain blind to the advantage of technical education which the State has provided for them. They should take a special pride in the Pennsylvania State College, and make the natural bond between that institution and themselves more and more strong and enduring. The tillers of the soil constitute, after all, the basis of a State's wealth, and the Commonwealth has only fulfilled a moral duty in dedicating a certain part of its pedagogical system to the particular needs of its most important class of producers. It only remains for the farmers to show a proper appreciation of the opportunities granted. As ex-Governor Beaver recently declared concerning the Agricultural Department of the State College, there should be at least 1,000 young farmers in its lecture courses this winter, and many times that number in its course of home reading.

In addition to its regular collegiate curriculum, the Pennsylvania College offers a free lecture course of twelve weeks in agricultural, horticulture and veterinary science. This course is thoroughly adapted to the needs of the general farmer. Furthermore, there are two six-weeks free courses for dairymen, one to fit men to manage creameries, and one to instruct the dairy farmer. These short courses are within the reach of every farmer in Centre county, at least. For those farmers who are unable to attend the College lectures there has been devised a most carefully arranged free course of home reading in agriculture and horticulture. This department; it has met with the hearty approval of practical farmers, and should recommend itself to every rural cultivator and stock raiser in the State. — *Phila. Record.*

FREE coal is a pressing necessity to our manufacturers—to enable them to produce their fabrics cheaply enough to compete with foreign goods in both the home and foreign markets. It is necessary to lighten the cost of transporting farm products to market, which cost is deducted from the very slim profits now realized by our farmers. It is a necessity for our steamshippers. Free coal would also be an inestimable boon to all householders, especially to the poor!

THE authorities of a West Chester (Pa.) Sunday School have decided to dispense with candy distribution at Christmas time, on the ground that candy is not conducive to health. A great deal depends on the candy. Made of pure material, it is not only innocuous, but many physicians say that it supplies an actual need of the system, especially in childhood. Christmas has a physiological as well as a moral side; and a hygienic Christmas, according to popular notions of hygienic fare, would be but a sober and sorry festival.

COLONEL BOB INGERSOLL should sit down some day and devote a few minutes of his valuable time to the calm consideration of the question which of the two is doing the more real good in the world—himself or General William Booth, of the Salvation Army.—*Chicago Tribune.*

Kitchen Comforts.

Every farmer knows that there is no profit in working with poor tools. The waste of time and strength involved in working at a disadvantage is utterly contrary to true principles of industrial success. And the energy and ingenuity of the "Yankee" are usually sufficient to provide whatever is necessary. But women are slower, as a rule, to make sure of the conditions for efficient work. They go on, year after year, putting up with inconveniences and discomforts that waste a very important share of their time and strength, thus simply throwing away life.

Just at this time of year, when the necessary changes compelled by cool winter are made, it is an excellent time to consider, *in every kitchen*, what comforts and conveniences can be introduced for the benefit of the housekeeper. Her work is hard and monotonous at the best, and whatever lightens it or makes it more immediately productive of result, is a benefit to the whole family, no less than to herself. A half hour a day, released from domestic labor for higher uses, may make an untold difference in health and happiness. Sons and husbands, as well as wives and mothers, will do well to give the subject a careful study. Comfort in the kitchen is comfort at the very centre of home life. And there are very few houses in which little improvements may not be made that will lessen the daily work, or increase its effectiveness, while even a very few minutes gained every day in the year counts up surprisingly in the sum total.

A little serious thinking about the daily routine is apt to bring to light some way by which time may be saved, or better results obtained at the same outlay. There are so many steps to be taken; a window cut through into the pantry, or a better arrangement of the sink; a wood-box exactly in the right place (filled from the outside, it may be), or any one of a dozen little expert contrivances for some one handy with tools, may give quite a new aspect to the daily tasks.

After the larger requirements are met, the good stove, with enough and not too many utensils; the good water supply and disposal of waste; the doors and windows and floors that need no weather strips or other additional protection; the convenient arrangement for putting away food and table furniture; there are many little comforts worth thinking about. These may seem to be very slight things, and yet in the aggregate they may have an important influence in determining domestic comfort and contentment. Such little things are a comfortable low rocking-chair in which to rest at odd moments, or a high stool, convenient for many kinds of work, to spare the incessant "being on her feet," which injures the health of too many women. An abundance of holders and mats and over-cloths will often save both the temper and the fingers; we can all have things like these, but we sometimes forget to provide them until some penalties are paid for the neglect. Would it not be a good plan to devote a week to the kitchen comforts, giving up all the spare time to making every practical improvement that the case demands, with a view to lighter labor and fuller satisfaction for the workers upon whom the home comforts so largely rests?—*Am. Agriculturist.*

The Kitchen.

The kitchen ought to be the most pleasant room in the house, and be the best furnished—in proportion, and yet it is too often the case that it is the most dismal hole imaginable. Many house builders pay no attention to the location of the kitchen at all. They put it off in a lower dark corner, one that is too gloomy for any other purpose, and there the woman who does her own work has to spend two-thirds of her waking hours. The kitchen should be—for health's sake, if for no other—the brightest room in the house, excepting only the nursery and the room where the children sleep. It should have every convenience for saving labor and steps, and be well ventilated.—*Globe-Democrat.*

REMARKABLE CANINE INSTINCT.—A Detroiter loaned a friend his dog not long ago to take with him on a hunting expedition, and when the hunter returned he was asked about the dog.

"How did he do?" he inquired?"

"Do nothing," was the ungracious reply, "I'd just as soon had a cow with me."

"That's strange. What did he do?"

"Well, he went all right until just before I would get ready to fire, then he would turn tail and go to the rear. I guess he must have been afraid of the birds."

"Huh," sniffed the owner, "not much. Birds! He knew who was behind that gun."

A STRATEGIST.—Van Cortland Park—"I have just bought my wife a diamond ring for $250."

Murray Hill—"I had no idea you were so extravagant."

"Extravagant! My dear fellow, I will save lots of money. That's why I bought it."

"I don't catch on."

"Why, man alive. I'll save $500 on kid gloves."—*Texas Siftings.*

IN THE NATURE OF A BREAK.—He (pleadingly)—"Why can't we be married right away?"

She (coyly)—"Oh, I can't bear to leave father alone just yet."

He (earnestly)—"But, my darling, he has had you such a long, long time."

She (freezingly)—"Sir!"—*Brooklyn Life*

MRS. STRONGMIND—"Something must be done. All over the country the men are rebelling against what they call 'petticoat government.'" Mrs. Rightem—"Then we must remove the cause." "But how?" "Wear bloomers."—*Chicago Tribune.*

AGITATOR O'RAFFERTY—"The fiend, me friends, has belonged to the paple since the days of Adam."

"Yis," replied a voice in the crowd, "and wasn't he evicted from the Garden of Eden widout compinsation? Don't spake of him."—*Texas Siftings.*

FWEDDY.—"Does tobacco smoke annoy you, sir?"

Testy Old Gentleman.—"No, sir; but that thing you're smoking does annoy me most infernally, sir!"—*Chicago Tribune.*

MOTHER—"You need not have quarreled with that boy. I told you always to think before speaking." Small Son—"Oh, I did. I didn't say a word till I'd thunk up a whole lot o' names to call him."—*Good News.*

EX-QUEEN LILLIUOKALANI considers Queen Victoria a stuck-up old thing.—*N. Y. World.*

YOUNG LADY.—"I should like to give my intended a little surprise before our marriage. What would you recommend?"

Lady Friend.—"Don't wear your false teeth just for once."—*D'Oli Glotto.*

MRS. Strongmind—"If women would only stand shoulder to shoulder they would soon win the suffrage." Dr. Guffy—"But, madam, that is something they can't do with the present styles in sleeves."—*Harper's Bazar.*

The Season for Turkeys.

Two hours in a good, moderate oven is sufficient for a fifteen-pound turkey to roast, and yet, if at all doubtful of his condition, and he may be tested with a knife, draw him from the oven and thrust a sharp knife down between the body and bone of the second joint. If there is the slightest suggestion of pink flesh and blood the fowl is not perfectly cooked, and needs a few moments more of heedful basting.

It is on the stuffing that the admirably-roasted turkey depends almost wholly for flavor. The old-fashioned combination of bread, sage, broad onion effects and pepper in quantities to bring tears to the eyes of the tender-tongued has given way as a revered but obsolete New England tradition before a preparation with chestnuts.

The best chestnut stuffing, according to an eminent French authority, is made for one turkey according to the following proportions; Chopa good sized Bermuda onion very fine and brown it in a quarter of a pound of butter. Add to this the well-cleaned liver of the turkey chopped like the onion, and mix with half a pound of bread that has been soaked in milk or beef gravy and squeezed almost dry of all liquid. The remaining ingredients are a half pound of sausage meat, a handful of minced parsley, the yolks of three raw eggs, salt and white pepper to taste, a tablespoonful of thyme, one of sage, and then chestnuts. The nuts, a pound of them, need first to be roasted until their shells may be taken off, then boiled in just enough water to cover them, with a little salt, one tablespoonful of sugar and one of butter. When tender these must be mixed with the stuffing.

The chestnut filling is more highly to be recommended than any more elaborate preparation, with truffles, though these latter can be used with taste in larding the handsome roast, adding thereby ornament and much flavor. To do this the skin about the breast bone is slit at intervals of a half inch and the truffles thrust partly under and into the flesh. The turkey brought to the table for carving should have the first joints of its legs lopped, so, along with the first joints of the wings and the neck there is no reward for the dinner to be found in the outlook of bone and gristle. The base of the second joint may be neatly finished with paper frills, a boutonniere of parsley thrust into the truffled breast and a wreath of cress to encircle the dish of the most heartily worshiped martyr of the nineteenth century.

THERE are sorry days ahead of those foolish members of the Legislature who entangle themselves in the meshes of bosses.—*New York Tribune.*

KNIGHTS OF THE MACCABEES.—The State Commander writes us from Lincoln, Neb., as follows: "After trying other medicines for what seemed to be a very obstinate cough in our two children we tried Dr. King's New Discovery and at the end of two days the cough entirely left them. We will not be without it hereafter, as our experience proves that it cures where all other remedies fail." — Signed F. W.
